1. About the Extension

The Restrict Fake Registration extension for Magento 2 by FMEextensions verifies the authenticity of users during the registration process. It allows store admins to limit registrations originating from specific IP addresses and email domains. Additionally, the extension offers the capability to enforce restrictions based on character limits and special characters usage.

The extension assists store admins in preventing registrations from unauthentic users.

2.Feature List

- Apply restrictions to first, middle, and last names by setting character limits
- Limit registrations based on email domains, special characters, and IP addresses
- Write custom error messages for various registration violations
- Maintain a log of failed registration attempts
- Enable email notifications

3.Extension Details

3.1 General Setting

At the backend, go to **FME EXTENSIONS** and click on **Fake Registration Configurations**. Here you can find the following extension configurations.

Enable <small>[store view]</small>	Yes	<input type="checkbox"/> Use Website
Enable characters limit on First Name <small>[store view]</small>	Yes	<input type="checkbox"/> Use Website
Maximum characters for First Name <small>[store view]</small>	5	<input type="checkbox"/> Use Website
Enable characters limit on Middle Name <small>[store view]</small>	Yes	<input type="checkbox"/> Use Website
Maximum characters for Middle Name <small>[store view]</small>	10	<input type="checkbox"/> Use Website
Enable characters limit on Last Name <small>[store view]</small>	Yes	<input type="checkbox"/> Use Website
Maximum characters for Last Name <small>[store view]</small>	5	<input type="checkbox"/> Use Website

- **Enable:** Select 'Yes' to enable the module
- **Enable characters limit on First Name:** Select 'Yes' if you want to enable registration restriction based on the character limit for the first name.
- **Maximum characters for First Name:** Specify the maximum number of characters allowed for the first name.
- **Enable characters limit on Middle Name:** Choose 'Yes' if you want to activate registration restriction based on the character limit for the middle name.
- **Maximum characters for Middle Name:** Specify the maximum number of characters allowed for the middle name.
- **Enable characters limit on Last Name:** Select 'Yes' if you want to enable registration restriction based on the character limit for the last name.
- **Maximum characters for Last Name:** Specify the maximum number of characters allowed for the last name.

Restriction message for Characters Limit <small>[store view]</small>	<input type="text" value="Maximum characters limit for %2 is %1."/>	<input type="checkbox"/> Use Website
Use %1 to show character limit and %2 for restricted name field.		

- **Restriction message for Character Limit:** Write an error message to display when a user exceeds the character limit. %1 will automatically retrieve the maximum allowed characters and %2 will retrieve the name field that is restricted.

Enable Special Characters Restriction <small>[store view]</small>	<input type="text" value="Yes"/>	<input type="checkbox"/> Use Website
Special Characters <small>[store view]</small>	<input type="text" value="!,#,%,&"/>	<input type="checkbox"/> Use Website
